

Sample CAT 5 Survey Profile (For a primary grade level)

This report is designed to show objectives measured on the test and how well your student did in relation to these objectives. Category objectives and specific objectives are listed to the left under the heading, *Category Objectives*. To the right of *Category Objectives* is the heading, *Item Numbers*. A circled item number indicates that your student did not select the correct answer, or left it blank or marked more than one response thus invalidating this item. The total number of items answered correctly out of the number possible for each test section is indicated next to the heading *Number Items Correct*.
